**METHOD AND APPARATUS FOR AUTOMATED
OPERATING SYSTEMS UPGRADE**

Abstract of Disclosure

5

A method for an automated operating system upgrade in an information handling system, from an older version to a newer version, is disclosed. The method includes initiating a preparation for the upgrade from an operating system upgrade preparation media. An eligibility of the information handling system for upgrade in response to the preparation is determined. Lastly, the upgrade proceeds in response to an eligibility determination, otherwise upgrade preparation is terminated.
